

Nominal possession and pluractionality in Seri

- Jérémy Pasquereau, U. of Surrey & U. of Poitiers
- Matthew Baerman, U. of Surrey
- Carolyn O'Meara, U. Nacional Autónoma de México

Funded by the Arts & Humanities Research Council (UK) under grant AH/P002471/1 ('Seri verbs'). Their support is gratefully acknowledged. Thanks to all our Seri consultants, especially: Deborah Perales, Gabriel Hoeffler, Teresa Hoeffler, Karelia Perales, Genoveva Herrera, and Anamaria Morales.

Cmique iitom / Seri (isolate)

- Seri is spoken in Sonora, Mexico in two villages: *Haxöl Iihom / El Desemboque* and *Socaaix / Punta Chueca*

- It is spoken by approximately 900 speakers (Ethnologue 2007)
- It has a rich system of number distinctions in verbs, with morphological and functional parallels in nouns

Parallels between nouns and verbs

This language marks several number distinctions in both its nouns and verbs

We show that one such distinction---pluractionality---is found in both nouns and verbs.

Roadmap

- 1. Verbs
- 2. Nouns
- 3. Transcategorical pluractionality
- 4. Typological parallels
- 5. Conclusion

VERBS

Seri verbs

- Number distinctions in verbs; see Marlett (1988, 2016) and Moser & Marlett (2010)
 - Subject number
 - Singular
 - Plural
 - Event number
 - Neutral
 - Pluractional
 - Multiple; see Cabredo Hofherr, Pasquereau, O'Meara (2018)
 - Distributional; see Pasquereau and Cabredo Hofherr (2020)

Pluractionality (Newman 1980, 2012; Cabredo Hofherr & Laca 2012)
The marking on verbs of event plurality.

5

Seri verbs: subject number

- Singular subject

Moxima **sahmees** **hizcoi** **h-yoohit.**
yesterday orange DEM.PL 1SG-RLS.YO.eat
'Yesterday I ate these oranges.'

Moxima **sahmees** **hizcoi** **h-yoohitim.**
yesterday orange DEM.PL 1SG-RLS.YO.eat.MULT
'Yesterday I ate these oranges (over time).'

* **Moxima** **sahmees** **hizcoi** **h-yoiitoj.**
yesterday orange DEM.PL 1SG-RLS.YO.eat.PL
Int. 'Yesterday I ate these oranges.'

* **Moxima** **sahmees** **hizcoi** **h-yoiitolca.**
yesterday orange DEM.PL 1SG-RLS.YO.eat.PL.MULT
Int. 'Yesterday I ate these oranges (over time).'

6

Seri verbs: subject number

- Plural subject

* **Moxima sahmees hizcoi ha-yoohit.**
 yesterday orange DEM.PL 1PL-RLS.YO.eat
 Int. 'Yesterday we ate these oranges.'

* **Moxima sahmees hizcoi ha-yoohitim.**
 yesterday orange DEM.PL 1PL-RLS.YO.eat.MULT
 Int. 'Yesterday we ate these oranges (over time).'

Moxima sahmees hizcoi ha-yoiitoj.
 yesterday orange DEM.PL 1PL-RLS.YO.eat.PL
 'Yesterday we ate these oranges.'

Moxima sahmees hizcoi ha-yoiitolca.
 yesterday orange DEM.PL 1PL-RLS.YO.eat.PL.MULT
 'Yesterday we ate these oranges (over time).'

7

Seri verbs: event number

- Neutral form is underspecified

Juan quih xiica an iqueaactalca coi hant iyootox.
 Juan DEF suitcases DEF.PL down 3>3.RLYO.extend
 'Juan dragged the suitcases.'

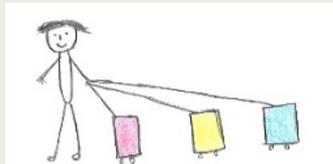

Context 1: true

Distribution over times: ✓
 Distribution over spaces: ?

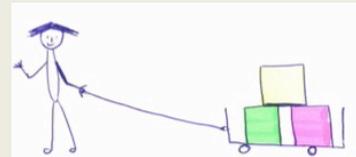

Context 2: true

Seri verbs: event number

- Neutral form is underspecified

Juan quih xiica an iqueaactalca
 Juan DEF suitcases
coi hant iyootox.
 DEF.PL down 3>3.RLYO.extend
 'Juan dragged the suitcases.'

Context 2: true
 Distribution over times: ✗
 Distribution over spaces: ✓

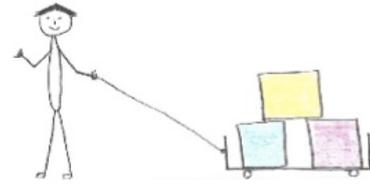

Seri verbs: event number

- Neutral form is underspecified

Juan quih xiica an iqueaactalca
 Juan DEF suitcases
coi hant iyootox.
 DEF.PL down 3>3.RLYO.extend
 'Juan dragged the suitcases.'

SITUACIÓN: ESTA TARDE VI A JUAN ARRASTRANDO
 SUS MALETAS. TENÍA 3 MALETAS,
 ENTONCES USÓ UNA CARROTA PARA
 LLEVARLAS A SU CASA.

Context 3: true
 Distribution over times: ✗
 Distribution over spaces: ✗

11

Seri verbs: multiple

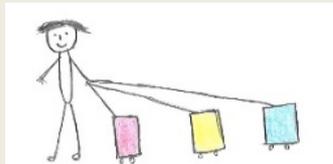

- Multiple form requires multiple events which are, at least, distributed over times

Juan quih xiica an iqueaactalca coi hant iyootoxim.
 Juan DEF suitcases DEF.PL down 3>3.RLYO.extend.MULT
 'Juan dragged the suitcases.'

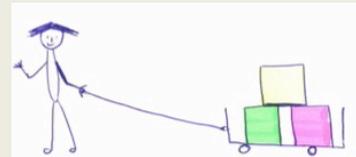

Context 1: true
 Distribution over times: ✓
 Distribution over spaces: ?

Context 2: false
 Distribution over times: ✗
 Distribution over spaces: ✓

Context 3: false
 Distribution over times: ✗
 Distribution over spaces: ✗

12

Seri verbs: distributional

- Distribution form requires multiple events which are, at least, distributed over spaces

Juan quih xiica an iqueaactalca coi hant iyootyax.
 Juan DEF suitcases DEF.PL down 3>3.RLYO.extend.DIST
 'Juan dragged the suitcases.'

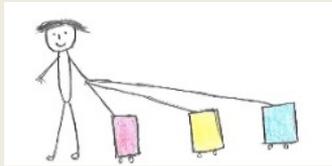

Context 1: true

Distribution over times: ✓
 Distribution over spaces: ?

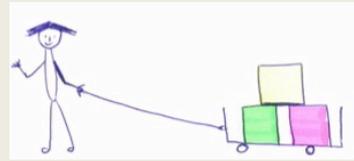

Context 2: true

Distribution over times: ✗
 Distribution over spaces: ✓

Context 3: false

Distribution over times: ✗
 Distribution over spaces: ✗

Seri verbs

- Two cross-classifying features
 - Subject number [singular, plural]
 - Event number [neutral, multiple, distributional]
- In principle, 6 cells but in actuality, if there is a separate distributional form, it is in the singular subject paradigm

		event number		
		NEUTRAL	PLURACTIONAL	
subject number			MULTIPLE	DISTRIBUTIONAL
	singular	hant iyootox	hant iyootoxim	hant iyootyax
	plural	hant iyootyajc	hant iyootyaxlca	

Disclaimer: no one-to-one mapping ! (Baerman 2016)

SG NEUTRAL	SG MULT	SG DIST	PL NEUTRAL	PL MULT	
-taxnij	-taxanl		-taxnal-ca	-taxnal-coj	'scold'
-atox	-atoxim	-atyax	-atyaj-c	-atyax-lca	'stretch'
-tahoij		-tahoil-c	-tahoil-coj		'make tubular'
-tzam	-tzam-tim	-tzamlqu-im	-tzamlc-am		'corner, attack'
-tanamj	-tanaml-c		-anaml-coj	-anaml-cam	'hurry'
-tazaain-im	-tazaiin-im		-azaail-cam	-azaiil-cam	'anchor'
-tpoc	-tpoct-im		-tpocl-im	-tpocal-am	'fall'
-tpazj-c	-tpaxlax		-tpazlax	-tpazlax-lca	'be scattered'
-tineezil-ca	-tineezil-im		-tineezil-coj	-tineezil-am	'be raspy'

-tim  -c  -ca  -lca  -coj  -tam  -cam 

All the plural suffixes in the verb system (except three) are also found in the nominal system.

NOUNS

Seri nouns

- Nouns employ largely the same system of plural markers as verbs. But with most nouns they just mean ‘plural’, without any of the further nuances found with verbs

SINGULAR		PLURAL	
hehe	‘plant’	hehet	‘plants’
noosi	‘mourning dove’	noosilc	‘mourning doves’
hapxa	‘cottontail rabbit’	hapxalc	‘cottontail rabbits’
haaho	‘road’	haaholcam	‘roads’

Seri nouns

- So-called possessed nouns have a plural form that indicates plurality of
 - the possessor, and/or
 - the possessum

SINGULAR		PLURAL	
yaaco	‘her house’	yaacöt	‘her houses; their house(s)’
itrooqui	‘her car’	itrooquij	‘her cars; their car(s)’
azaac	‘her older sister’	azaacla	‘her older sisters; their older sister(s)’
isla	‘her ear’	isloj	‘her ears; their ear(s)’

- Singular means possessor and possessum are singular
- Plural means at least possessor or possessum is plural

Seri nouns

- Some possessed nouns have another plural form that indicates plurality of the possessed item with a singular possessor

SG POSSESSOR		PL POSSESSOR	
SG POSSESSUM	PL POSSESSUM		
isc 'her louse'	isjc 'her lice'	isjoj	'their louse/lice'
ito 'her eye'	itoj 'her eyes'	itolcoj	'their eye(s)'
iztim 'her hipbone'	iztaj 'her hipbones'	iztalca	'their hipbone(s)'
inaail 'her skin'	inaailc 'her skins'	inaaaj	'their skin(s)'

For a more detailed description see Moser & Moser (1976), Marlett (1981, 1990)

19

TRANSCATEGORIAL PLURACTIONALITY

20

Analytic proposal

Claims

- pluractionality is not limited to verbs (Pasquereau 2019, 2021; Henderson, Pasquereau, Powell 2021)
- so-called “singular possessor plural possessum forms” are in fact **singular possessor pluractional forms**

	Sg subject/possessor		Pl subject/possessor
	neutral	pluractional	
'burn'	quitaj	quitalc	quitalcoj
'3poss.uncle'	amahaj	amahalc	amahalcoj

Analytic proposal

So-called “singular possessor plural possessum forms” are in fact **singular possessor pluractional forms**

Intuitively, pluractionality requires a plurality of pairings :

- between eventualities of V-ing and participants, times, spaces, etc

Singular subject pluractional verb form

Siimet quih tazo yita-lc.

bread DET one burn-PLUR

One bread is cooked (has burnt spots here and there).

Various states of being burnt are individuated via being paired with parts of the bread.

burning	_____	part _a of bread ₁
burning	_____	part _b of bread ₁
burning	_____	part _c of bread ₁

Analytic proposal

So-called "singular possessor plural possessum forms" are in fact **singular possessor pluractional forms**

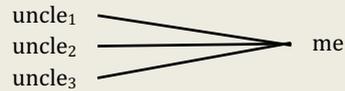

Intuitively, pluractionality requires a plurality of pairings :

- between possessum and possessor (more technically, between states of having a possessum and possessor)

Singular possessor: my uncles

Himaha-lc **coi** **cacöla** **iha.**
 1POSS.uncle-PLUR DEF.PL SBJ.NMLZ.be_tall.PL DCL
 My uncles are tall.

If possessor is singular, the only way to have more than one pairing is to have more than one possessum

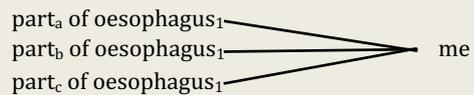

Argument 1

So-called "singular possessor plural possessum" forms can be used in cases where the possessum is not plural, but can be conceptualized as "distributed".

Singular possessor: my oesophagus

Ihyam-coj **quih** **xojizi.**
 1POSS.oesophagus-PLUR DEF EMPH.ache
 My oesophagus hurts all over.

If possessor is singular, the only way to have more than one pairing is to have more than one possessum

Argument 2

So-called “singular possessor plural possessum” stems correspond to singular subject pluractional forms via verbalization, even when the meanings have become unrelatable.

possessor/subject	possessum	noun	verb	event #
singular	singular	inaail 'his skin'	iyinaail 'has X empty'	neut
	plural	inaailc 'his skins'	iyinaailc 'has Xs empty'	dist
plural	singular	inaaaj 'their skin(s)'	iyinaaaj 'have X empty'	neut
	plural			

Pluractionality expresses distribution of possession

TYPOLGY

‡Hoan (Kx'a)

Prefix **kí-**

- Used with verbs as obligatory accompaniment of the pluractional suffixes **-llqo** and **-čũ**.

Nlnobo-nllgà'e 'a kyà'o
 N. PROG go
 'Nlnobo-nllgà'e is going.'

Jefo 'a kí-kyà'o-llqò
 J. PROG PLUR-go-SEQ
 'Jeff is walking around.'

Jefo kí-llq'ao-ču-'a †àmkòe
 J. PLUR-stab-REP-PFV person
 'Jeff stabbed the person repeatedly.'

(Collins 1998, 2001; Collins & Gruber 2014)

‡Hoan (Kx'a)

Prefix **kí-**

- Used with predicate adjectives and a few intransitive verbs to mark distribution over a plural subject.

llkà'a-qà kí-kũru
 thing-PL PLUR-hot
 'The things are hot.'

čòò!ka'e ki-llkà'-'a kì !kôa na
 people PLUR-sit-PFV LINKER room in
 'The people are sitting in the room.'

(Collins 1998, 2001; Collins & Gruber 2014)

ʃHoan (Kx'a)

Prefix **kí-**

- With inalienably possessed nouns, it marks that a plurality of items are possessed. Used in conjunction with noun plural suffixes **-qà** and **-nlne**.

ʃ'àmkòe	!kôa	ʃ'àmkòe	kí-!kôa-qà
person	house	person	PLUR-house-PL
'the person's house'		'the person's houses'	

- Prefix **kí-** on possessed nouns is sensitive to the number of possession relationships as opposed to the number of possessed items per se.

hĩ-sĩ	ʃhà"ma	hĩ-sĩ	ʃhà"ma-nlne	kí-!ka'a	ʃhĩ-lkà'a	kí-ʃhà"ma(-nlne)
bird-DIM	wing	bird-DIM	wing-PL	PLUR-red	bird-DIM.PL	PLUR-wing(-PL)
'The bird's wing'		'The bird's wings are red'			'the birds' wings'	

- 'Wings' are plural for the purposes of suffixation and adjective agreement, but they're possessed a pair at a time.

(Collins 1998, 2001; Collins & Gruber 2014)

Nisgha (Tsimshian)

- "Distributive" prefix **qa-** is used with both verbs and nouns.
- Possessed nouns mark number of both possessor and possessum.
- Prefix **qa-** can be added to specify distribution of possession.

ʔús-iṃ
dog-1PL
'our dog'

ʔas~ʔús-iṃ
PL~dog-1PL
'our dogs' (one household)

qa-ʔas~ʔús-iṃ
DISTR-PL~dog-1PL
'our dogs' (several households, one or more dog per household)

(Tarpent 1986)

CONCLUSION

31

Main points

In Seri (and perhaps other languages), the same morpheme "pluractionality" combines with both verbs and nouns

- Same exponent on both nouns and verbs
- Same meaning (distribution) with both nouns and verbs

Pluractionality on verbs requires a plurality of event(ualitie)s which, depending on the language, can be individuated by a number of parameters like event participants

In such languages, event plurality therefore entails participant plurality

Similarly pluractionality on possessive nouns in Seri and perhaps other languages can entail a plurality of possessum

¡Haa xah tiipe!
